

Volunteer Opportunities

The Newark Cemetery/Parks & Recreation Department is fortunate to have many citizens and groups that provide assistance with our Adopt-A-Park program each year. There are several different ways that they support our department, including planting flowers, picking up litter in the parks, bike trails, and along the highways, spreading mulch around playground equipment, assisting with clearing brush and debris, or by simply notifying us of any issues that may need attention by our staff.

Our department even has a firewood program where we work with volunteers who sign up to cut wood in exchange for collecting it for their personal use. Those who participate in this program agree not to use the wood for resale, and the program allows our department to remove and clear fallen trees and nuisance trees from our parks and other areas as deemed necessary.

The Adopt-A-Park program has been very successful through the years, and those who participate truly make a huge difference in the appearance of our City.

For more information about this program, please feel free to contact us at 740-670-7782 or email us at cjackson@newarkohio.net.
